

## Photovoltaic Project : NEW PROJECT 2012 / 2013

### Capacity

- Total capacity : 343 installations with 100 Kw power = **34 Mw**
- Unit capacity : 100 Kw
- Energy production per year : 113 850 (moyenne )
- Square : 680 m<sup>2</sup>

### Geographic area

- Situation : France South East and West
- Solar irradiation : 1150 (on average )
- Orientation : S

### Technic

- Photovoltaic panel :
- Inverters :
- Slope : 17°

### Kind of construction

- Free shed ( wood or metallic )

### Grid connection deadline 08/2013

### Financial Data

- Feed-in tariff : 0.236 €/Kwh
- Installation price 1.85 €/Wc
- Building cost: 0.55 €/Wc
- Grid connection cost,: Price : first quarter 2012
- IRR 7.48 ( for information )
- IRR Equity : 13.10 ( for information )

### Commentary: Eurotrades has several subsidiaries
